- Tradinvest

---

**KEY RESULTS**

- 660 farmers have improved access to agri-inputs in two districts through four input retailers.
- 5 aggregators and producers supported improved connectivity to market increasing income for 420 farmers and 42 farm workers.
- First ever specialised processing in rice value chains resulting in market access for over 1,500 farmers.
- Improving quality and efficiency in high-value processing value chains such as coffee, spices and cattle; improved the income of over 1,000 farmers.
