The Six WEE Domains

Changing perceptions of what women can and cannot do

1. Influence on Social Norms
   - Increased incomes

2. Economic Advancement
   - Do women have access to assets, services, and other supports?

3. Decision-making
   - Do women have access to jobs and skills?

4. Functions and Workloads
   - Do women have freedom and authority over household income, workload, and access?

5. Access to Opportunities
   - Can women take up new economic functions or improve existing ones; can they reconcile this with their existing workload; can their workload be reduced?

6. Access to Assets, Services
