Increased incomes

Do women have freedom and authority over household income, workload, and access?

Do women have access to assets, services, and other supports?

Functions and Workloads

Influence on Social Norms

Economic Advancement

Decision-making

Access to Opportunities

Access to Assets, Services

The Six WEE Domains

Changing perceptions of what women can and cannot do

Can women take up new economic functions or improve existing ones; can they reconcile this with their existing workload; can their workload be reduced?
