

The Fiji Commerce & Employers Federation (FCEF) partnered with the Market Development Facility (MDF) in December, 2018 to establish the **FIJI ENTERPRISE ENGINE (FEE)** - a Micro, Small and Medium Enterprise (MSME) acceleration programme aimed at providing effective business advisory services targeted to FCEF's members; in particular their Young Entrepreneurs Council and Women Entrepreneurs & Business Council.

FEE is Fiji's first private-sector-led business acceleration programme inclusive of MSMEs classroom learning, one-on-one mentoring, group activities and networking boosters designed to provide participants with business skills and follow up support to effectively grow their businesses.

Accelerating Business Success

Fiji Commerce & Employers Federation

Supported by

An Australian multi-country initiative

MDF partnered with FCEF to:

Develop the business plan - introducing a sustainable, private-sector led acceleration service for FCEF members.

Design the model for FEE – establishing the accelerator service, from planning to implementation and monitoring.

INNOVATION

Commercially viable private sector led business acceleration programme with FCEF using local customised business learning platform.

OUTCOMES

The FEE programme outcomes are:

7 months of mentoring, networking boosters and guest lectures

15 participating MSMEs

9-month programme

12 full day classes

Local Business Coaches

4 areas – Strategic Management, Accounting and Financial Management, Human Resource Management and Sales and Marketing

GRADUATION
January 2020
